Recommendation for change-

Palomino Bred

551. Palomino Bred (PB) is a horse of any color and may exhibit any characteristics (such as, but not limited to, Paint, Appaloosa), that cannot meet the PHBA registration guidelines as stated in the current year PHBA Official Handbook, rules 503-512. A PB must also be produced from the breeding of at least one PHBA registered parent (not including the PB registry), and the other parent is required to be from the list of PHBA recognized breed registries.

A. Offspring from an unregistered (not registered with a recognized breed assoc.) PHBA parent, are not eligible for registry in the PB program, unless parentage can be verified in fact.

Justification for change-

We rely on the primary breed papers to support parentage to be fact. With no verification of parentage on the unregistered palomino horse, it cannot be proven by fact that said offspring is who they say it is. In this case a PB.
